

# ONE POCKET SHOT

*Willie Jopling*

Using the diamonds position the cueball and the 4 exactly as they are below, then place the other balls in the approximate positions shown. To bank the 4 you must cut it a little aiming at the cushion in front of diamond no. 6. Hit this shot hard with straight bottom and watch the cueball arc back, bank off the foot rail and die in the vicinity of your cue and bridge hand.

You should get this action with center bottom, but if you cannot, try a little bottom right. You will be safe even if you miss the shot
