

14and1.com Creates Nationwide 14.1 Leagues

****Host Rooms and League Operators Wanted****

Straight pool enthusiasts now have an alternative to 8-ball and 9-ball leagues to enjoy their favorite game in a league format with a uniform handicap system that allows players to compete nationwide with fellow 14and1.com members. 14and1.com has developed a unique handicap system that allows 14.1 players of any level to participate on a level playing field, from beginners to the seasoned player. Leagues are formed with a minimum of 8 players and a maximum of 16 players. Leagues are also "National Qualifiers." The top 2 finishers from all leagues qualify for the annual 14and1.com National Championships. All leagues must finish up their seasons before May 1st 2009 to have their qualifiers participate in the '09 National Championships.

We believe straight pool can be brought back to the popular status it once enjoyed. We believe our system will bring new players into straight pool and provide the much-needed uniform format for 14.1 enthusiasts all across the USA.

For more information and to order a free league start-up package please visit www.14and1.com. To talk to one of the 14and1.com league operators in the Inside English area, contact Ricky Bryant at 574-320-2438 (wrickyb@poolplayers.us). Find a league near you or start a division up in your own area! And be sure to check out our results page for coverage of their first national championship, held in May.
